Public Records Requests:

The SFMTA has a Public Records Request Manager whose duties include receiving and responding to requests for public records. Members of the public should direct their records requests to the SFMTA's Public Records Request Manager. Members of the public should not direct a request to personnel other than the SFMTA's Public Records Request Manager, as that may delay the SFMTA's response to the request while the request is forwarded to the Public Records Manager.
